How to use this dental plan

For In-Network benefits, members select a Delta Dental PPO dentist from our directory which is on our website at www.modahealth.com. Each family member may choose a different dentist. If you receive care from a dental provider not in the Delta Dental PPO Network, Out-of-Network coverage levels apply.

When the member visits:

Delta Dental PPO Dentists:

Benefits are paid at the PPO benefit level. Members are held harmless from balance billing (will not be billed for the difference between the dentist's billed charge and the Delta Dental PPO fee).

Delta Dental Premier Dentist, Non PPO:

Benefits are paid at the Premier benefit level. Members are held harmless from balance billing (will not be billed for the difference between the dentist's billed charge and the Delta Dental negotiated fee).

Non Participating Dentists:

Benefits are paid at the Out of Network benefit level. Members may be held liable for the difference between the dentist's billed charge and the non-participating allowable.

DELTA DENTAL NETWORKS

Save money on dental visits

Your dental plan lets you see any licensed dentist you want. But when you see a provider in our Delta Dental networks, you'll save money; and visiting a Delta Dental PPO dentist will give you an even better deal.

Choose Delta Dental providers to keep costs low

Your dental plan gives you access to Delta Dental, the largest network of dentists in the nation. You'll find Delta Dental providers close to home and across the country.

Through Delta Dental PPO and Premier networks, we set limits on what dentists can charge for certain services. It's our way of connecting you with great care at even better rates.

You'll save the most when you visit Delta Dental PPO providers. They agree to accept our lowest contracted rates as full payment.

Both Delta Dental networks protect you from 'balance billing' — the practice of billing you for the difference between your dentist's fees and the rates your dental plan will pay.

OVER →

What you pay by network

Here's how your network choice can affect your bill:

Delta Dental PPO dentists

- Lowest costs and the most savings
- No balance billing

Delta Dental Premier dentists

- Slightly higher costs with some savings
- No balance billing

Non-Delta Dental dentists

- Higher costs, since dentists don't set fee agreements
- Balance billing

ORAL HEALTH, TOTAL HEALTH

Dental benefits that protect more than just your smile

If you are diabetic or pregnant in your third trimester, the Oral Health, Total Health program offers more ways to care for your teeth and mouth — and keep the rest of your body healthy, too.

If you have diabetes

Diabetes increases the risk of cavities, periodontal (gum) disease, tooth loss, dry mouth and infection. If you have been diagnosed with this disease you are eligible for four prophylactic (preventive) cleanings or periodontal maintenance visits per year through our Oral Health, Total Health program. Protect your teeth and gums by enrolling today.

For details on the Oral Health, Total Health program, refer to the dental Member Handbook or visit Member Dashboard, your personalized member website.

If you're pregnant

Pregnant members who have periodontal (gum) disease are more likely to have a premature and underweight baby. Bacteria can enter the bloodstream through the mouth, and the body's response to the infection can trigger early labor.

If you are expecting, you can enroll in the Oral Health, Total Health program to help prevent gum disease. If you've already had two cleanings for the year, you'll be eligible for another cleaning or checkup during your third trimester. This added preventive (prophylactic) visit is covered regardless of normal plan frequency limits. That way, you can receive a dental cleaning during the third trimester, no matter what.

Learn more and enroll

To enroll in the Oral Health, Total Health program, fill out the form on the reverse side of this sheet or access the form online by logging in to Member Dashboard. Once you've signed in, simply click on "Oral Health, Total Health" in the myHealth tab.

Use Find Care to locate a dental provider near you

Our provider directory tool can help you save money when seeking care.

Find Care, our online provider directory tool, makes it easy for you to locate an in-network provider by name, provider type, specialty, network, location, gender identity, DentaQual provider ratings and more. Plus, finding an in-network dental provider that's right for you can also save you out-of-pocket costs.

How to find a provider

1. Visit deltadentalOR.com.
2. Under the "Online Tools" drop-down menu, select "Find a dentist".
3. Choose the "In Oregon or Alaska" link or "Outside of Oregon and Alaska" link depending on the state you live in.
4. Under network, choose the Delta Dental PPO or Delta Dental Premier network, which can be found on your member ID card.
5. Under location, enter in a city, state or zip code, and then search.
6. A list of providers will be shown for the area you searched. This list will also include DentaQual dental provider ratings, if available, so you can review providers based on care and performance metrics.

Save costs when you choose in-network care

Getting quality care is easier and more affordable when you see "in-network" dental providers. These providers agree to accept your insurance at lower rates and meet quality standards. Choosing an in-network dental provider keeps your out-of-pocket costs low.

In-and out-of-network costs

It's important to know you may pay more for services from out-of-network dental providers than from in-network providers. If you choose an out-of-network provider, your benefits only cover a percentage of the maximum plan allowance for these services. Out-of-network providers may also bill you for the difference between the maximum plan allowance and their billed charges. This is known as balance billing. In-network dental providers can't do this. Please see your plan summary or your Member Handbook to learn more about in-network and out-of-network benefits and costs.

DENTAL BENEFITS

An additional benefit when you need it: The Special Health Care Needs Benefit from Delta Dental

Delta Dental members (children and adults) with qualifying special healthcare needs, now have access to additional benefits.

Seeing the dentist can be overwhelming for a person with special health care needs. In the U.S., 6.5 million people with disabilities can't access necessary dental care, despite being at a higher risk for oral health issues. We're working to change that.

Starting January 1, 2024, Delta Dental of Oregon & Alaska is introducing additional benefits for members with special health care needs. These benefits will reduce barriers to getting dental care and help make dentist visits a more positive experience, because everyone deserves a healthy smile.

What are special health care needs?

As defined by the American Academy of Pediatric Dentistry, special health care needs include any physical, developmental, mental, sensory, behavioral, cognitive or emotional impairment or limiting condition requiring medical management, health care intervention and/or use of specialized services or programs. The condition may be congenital, developmental or acquired through disease, trauma or environmental causes, and may impose limitations in performing daily self-maintenance activities or substantial limitation in a major life activity.

OVER →

What is included in the enhanced benefit?

- Additional exams and/or consultations.
- Up to four dental cleanings in a benefit year.
- Treatment delivery modifications to help dental staff provide oral health care for patients with sensory sensitivities, behavioral challenges, severe anxiety or other barriers to treatment.

How do I get these benefits for myself/my spouse/my dependent?

Call the Delta Dental Customer Service team at **888-217-2365** for Oregon or **888-374-8906** for Alaska.
